

# CHOOSE YOUR PLAN AND EARN UP TO 60% COMMISSION!

Currency.com's plan-based affiliate programme is built around you and your needs.

Want to get lifelong commissions? Opt for the Lifetime plan. Interested in higher payouts? Go for the Limited plan. Choose the plan you're most comfortable with and earn up to 60% commission. It's that simple.

The size of commission also depends on the revenue level (revenue includes exchange fees and trading fees – leverage – paid by the introduced traders). There are 3 revenue levels: Silver (under \$5,000), Gold (\$5,000-\$10,000) and Platinum (over \$10,000). So, for example, at the Silver level, the size of commission can be either 30% (lifetime) or 50% (for 6 months) depending on the plan you choose. If you are not satisfied with the plan you've chosen, don't worry! You will be able to change it in the future.

The Lifetime affiliate plan provides you with lower commissions over an indefinite period of time. The size of commission you get depends on how much revenue you've generated for Currency.com in any given month. See how revenue levels for the Lifetime plan work below:

Level	Currency.com revenue	Affiliate
Silver	below \$5,000	30% (lifetime)
Gold	\$5,000-\$10,000	50% (lifetime)
Platinum	above \$10,000	60% (lifetime)

Choosing the Limited affiliate plan will allow you to leverage higher payouts over specified periods of time. The size of commission you get depends on how much revenue you've generated for Currency.com in any given month. See how revenue levels for the Limited plan work below:
